SWISSTEN

smartphone accessories

Welcome to the world of Swissten.

Swissten is a brand of smartphone accessories that finds inspiration in Swiss precision and emphasis on quality. Swissten came on the market in 2015 with a model series of travel chargers and car chargers, and from that point on, we are growing year by year. In the Swissten portfolio, there are now more than 1850 different products, and the number is still growing and not showing any signs of stopping.

We are a company specializing in smartphone accessories, with a strong presence in the market since 2015. The company has established itself as a reliable provider of high-quality accessories, offering a wide range of products designed to enhance the functionality and style of mobile devices. With a focus on innovation and customer satisfaction, Swissten has become a brand for consumers seeking durable and stylish accessories for their smartphones. Since its inception, Swissten has consistently delivered innovative and practical smartphone accessories to meet the evolving needs of consumers.

If you have a device that supports wireless charging through the QI protocol, you will no longer have to deal with any problems with charging cables. Simply place your phone on the surface of the power bank, turn it on, and your device will start charging wirelessly. The power bank is great, mainly because of its low weight and small dimensions with a metal stand.

Why a power bank with fast charging?

If you ask the question „Where and when do I need a power bank?
It follows from that, in the vast majority of cases, when your laptop, tablet or smartphone is having a few percent of energy on hiking and cycling trips, vacations under a tent, etc. In all cases, you need to have a quickly charged it from the power bank.

CarLINK adapter

Apple CarPlay
androidauto

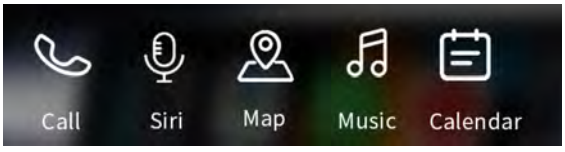

for iOS 10+ or Android 11+

Plug & Play

SWISSTEN CarLINK adapter allows you to wirelessly connect your smartphone to your vehicle via Apple CarPlay or Android Auto. No more cables – enjoy navigation, calls, music, and messages comfortably and safely while driving. Thanks to its compact size and premium construction from zinc alloy and tempered glass, the adapter becomes a discreet yet reliable companion on every journey.

Plug & Play installation
Simply plug it into your vehicle's USB port and within seconds you can use all CarPlay or Android Auto functions wirelessly.

Swimming waterproof bone conduction headphones

Premium SWISSTEN Bone Conduction Bluetooth headphones are designed for swimmers, triathletes, and outdoor enthusiasts who want to enjoy music in any environment – from the swimming pool to the running track. With bone conduction technology, you can enjoy music even underwater without blocking your ears, all while staying aware of your surroundings. The IP68 rating ensures complete protection against water and dust, so you don't have to worry about long training sessions in the water.

Bluetooth speaker SPECTRUM

This Bluetooth speaker SPECTRUM is the perfect compact companion for your adventures. Its rugged, splash-resistant construction means you can take it party-to-party, from the pool to the campsite. Turn up the volume and experience your music like never before with room-filling sound that teaches your senses. Whether you're a music lover, outdoor enthusiast or just someone who loves great tunes, the SWISSTEN SPECTRUM will elevate your listening experience. You will literally love the very small dimensions of the speaker (10.6 x 8.2 x 8.4 cm). It fits in all backpacks, purses and bags, ensuring that you always have it at hand.

Quick Release Handlebar Bike Bag
Rainproof Bicycle Phone Holder with Touch Screen

Secure fit - The attachment system guarantees a firm and secure fit of the case on the handlebars or stem. When taking a refreshment break, the holster can be easily released and taken with you using the lever.
Storage space - The holster has plenty of space for personal belongings as well as tools, a spare tube or power bank.
Durable design - The case is made of sturdy material to ensure that the smartphone and other items inside the case are maximally protected against both potential damage and inclement weather.
Smartphone view - Using Velcro, the smartphone is attached inside the case under the transparent mica. The smartphone display is clearly visible through it, making the case suitable for use with navigation, for example. The smartphone can of course be operated through the mica.

TEMPERED GLASS

case friendly | diamond strength | shock resistant | 100% touch

DIAMOND ULTRA CLEAR

Raptor Tempered Glass offers a new level of transparency and color preservation without distortion.

TESTED

drop ball test
scratch resistent test
adhesion test
antibacterial surface test
oleophobic coating test with liquid

EASY INSTALLATION

ESD is the best full adhesive coating that doesn't attract dust from the environment. Such coating facilitates and speeds up the installation process. It also reduces the likelihood of dust and other small elements between the glass and the display.

STRONGEST SHIELD

The screen is maximally protected on impact and scratches by the special tempered glass with it's hardened and rounded edges. The glass is also protective-case friendly.

ANTI-FINGERPRINT

The surface treatment of the glass is carried out by the most modern equipment with two plasma streams. This ensures a high level of surface quality. This makes the surface pleasant to the touch, improves the scrolling of the fingers on the screen and reduces the visibility of fingerprints.

- Antibacterial surface kills 99.9% of bacterias.
- Extreme hardened rounded edges.
- The silicone layer reduces the visibility of scratches on the used smartphone.
- Simple and quick installation without bubbles. Adhesion over the entire surface of the glass.
- Absolutely clear glass, doesn't distort colors or selfie photos.
- Improved oleophobic coating reduces fingerprint visibility and improves smartphone control.
- Ultra-thin glass that doesn't affect with the design of the smartphone.
- Full screen protection.
